REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are drawn to two specific mutations in the Nephrin gene which have been associated with basement membrane disease. There is no prior art or teaching to suggest the association of the specific exon 2 or exon 26 alleles with the basement membrane disease and therefore the claimed invention is novel and unobvious..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
